CAT C32A Marine Engine

PRODUCT DESCRIPTION

Cat C32A
Ser # RNC02784
1825 hp @2300rpm
Approx 3100-3300 hrs

Heat Exchanger, Turbos, aftercooler, oil pan and oil pump removed to remove engine from the boat.
All components reassembled without gaskets.

Sister engine spun a main bearing. Oil lubricated components contaminated and damaged. Otherwise a good parts engine
External components such as front and rear housings, rocker boxes, manifolds, Aftercooler housings are good. And several of these components actually cleaned and painted with awlgrip.
