

12v92 w 900HP

PRODUCT DESCRIPTION

Good Running Take Out with under 1,200hrs HE cooled with custom remote mount HE's. Third party mechanical survey and oil testing prior to removal from vessel. Engine was removed from the vessel for more fuel efficient TIER III compliant engines Engine was inspected with compression testing done at the time of inspection while in the vessel. Oil samples were taken from both engines and results show no problems. Both the inspection report and oil samples results are available. Engine is HE cooled and have custom SENDURE remote mount heat exchanger. They can be converted to standard HE set up with additional parts that would have to be purchased separately.
