2004 Truckable Barge with Outboard Motors

PRODUCT DESCRIPTION

2004 Assembled Barge Truck-able (2) 175 hp Outboard Motors

45ft

Main deck 12 ft wide and each side that flips down is 4 feet. The main deck 40 1/2 ft long then an additional 4 ft 8 inches for bracket and motor.

Used for seawall work. They would put the excavator on and then pound in the steel wall from the water. He had a cat 310 and also a large hatachi, but I am not sure of the size. According to google, a CAT 310 is 23,000 lbs. Report from a previous employee is they had over 30,000 lbs with rocks and excavator on it.

Sitting on blocks. Will need to rent a crane to load.
