

CAT C32A Marine Engine

PRODUCT DESCRIPTION

Cat C32A

Ser # RNC02784

1825 hp @2300rpm

Approx 3100-3300 hrs

Heat Exchanger, Turbos, aftercooler, oil pan and oil pump removed to remove engine from the boat.
All components reassembled without gaskets.

Sister engine spun a main bearing. Oil lubricated components contaminated and damaged. Otherwise a good parts engine

External components such as front and rear housings, rocker boxes, manifolds, Aftercooler housings are good.
And several of these components actually cleaned and painted with awlgrip.
