

2- NEW REINTJES WVS 730 TRANSMISSIONS- 3.047:1

PRODUCT DESCRIPTION

Transmissions are new Unused Units

They were purchased as part of an engine package for a New Build vessel. The vessel was never built and CMP sold the engines for the owner last year.

The gears which were mounted to the engines at that time, were removed and stored for resale.

Warranty is no longer active due to the age of units. Manufacturer has indicated that warranty could be re-applied however at a pretty steep cost. For more information, please call.
