VESSEL TYPE FIBERGLASS

LOA 27' 0"

BEAM 10' 3"

DRAFT 0' 24"

CAPACITY 6

VOLTAGE 12 AMP

This boat is in very good shape. It was powered by Mercury Verados twin 350hp originally. Motors have been removed and the boat is currently without power. The boat has a solid cored collar system that makes this vessel unique to others like her. The vessel is in very shape overall and would make a excellent patrol or tow boat platform The trailer is in excellent as well.
