

1250HP Push Boat Twin Screw

Coming soon!

PRODUCT DESCRIPTION

Year: 1980

Net Tons: 93

Length: 65'

Width: 24

Eye level: 27'

Draft: 8'

Propulsion: Cat 3412 w Twin Disc MG 540 7:1 Port: 5223 hours, Stbd: 18013 hours

It is believed the port had issues with the turbo and the head mechanic decided to do a top side rebuild. The STBD has not been done, because it has not reached 50% of running life nor had any issues. They typically do a rebuild between 35k and 40k unless oil samples start coming back dirty.

Categories: [Pushboats](#)
