

1250HP Push Boat Twin Screw

PRODUCT DESCRIPTION

Year: 1980

Net Tons: 93

Length: 65'

Width: 24

Eye level: 27'

Draft: 8'

Propulsion: Cat 3412 w Twin Disc MG 540 7:1 Port: 5223 hours, Stbd: 18013 hours

Port engine is being replaced. The STBD has not been done, because it has not reached 50% of running life nor had any issues. They typically do a rebuild between 35k and 40k unless oil samples start coming back dirty.

The vessel is brought to point of being COI ready. Buyer can inspect, and then finalize the COI locally.

Categories: [Pushboats](#)
