

900hp Push boat - Built 1978

PRODUCT DESCRIPTION

Main engines 12 V Detroit's 71, twin disc gears 4.5:1, 4 blade stainless props 50x41

Used as an agitation dredge beam. It has made some ship deliveries, moved other yachts and pushed other boats.

One bunk room and kitchen and bathroom.

Draw back for boat is that it is too tight for four people

One generator has 3500 -4000hrs

Listed as 900hp but is 850-900hp

Main engine has a lot of hours but the other engine was replaced 7500 port main star board 25000 since last major update. .

Could use some minor repairs on hand rails

Removed because they bought new boats to replace this one.
