## CAT 3306 Marine Genset - 165kw

---

### PRODUCT DESCRIPTION

165kw, 208, keel cooled. 13,000 hours since overhaul.  
Here is the only fully assembled photo we have. We had  
to partially disassemble the package to get it out.  
Found a cam on the unit with some pitting so it's getting  
re-profiled now.

We will reassemble and test before selling it.

**Categories:** [Marine Generators](#)

**Engine Manufacturer/Brand** CAT

**Engine Model** 3306TA
