

Cummins KTA38 M2

PRODUCT DESCRIPTION

Cummins KTA38-M2 marine diesel engine, CPL 6742, 1050 HP at 1600 RPM rating, 4100 hours, fully mechanical, twin turbocharged, aftercooled, industrial/marine build, holds 80 PSI oil pressure, excellent runner.

The engine was running a marine hydraulic power unit and it was in an enclosed container for its entire life until approximately 3 weeks ago when we removed it.

There is no panel or accessories, just the complete engine as you see it in the pictures.
