

23' Maritime Partner Alusafe 770 FRC Workboat

PRODUCT DESCRIPTION

Maritime Partner Alusafe 770 FRC (Project Hull)

Sortly ID: SNAL4T0059

Repower Hull, "As-Is"

Asset Class: Marine Vessels / Fast Rescue Craft

Built: 2007

Heavy-duty marine aluminum with a specialized rigid foam/PVC D-collar fender.

Propulsion: Inboard marine diesel (currently flooded/inoperable) mated to a commercial waterjet drive.

Integrated offshore single-point lifting frame with release hook; center steering console.

Application: SOLAS-approved Fast Rescue Craft (FRC), Man Overboard (MOB) boat, or heavy-duty offshore workboat.

The engine compartment was fully submerged during a hurricane.

The inboard diesel engine and all associated electrical harnesses, relays, and console gauges will need to a rebuild.

Jet Drive: The waterjet pump is intact but will require a teardown, bearing check, and fresh grease before mating to a new engine.
