

23' Maritime Partner Alusafe FRC - Twin Engine Workboat

PRODUCT DESCRIPTION

Maritime Partner Alusafe FRC - Twin Engine Workboat

Status: "As-Is" / Scrap & Salvage (Extreme Hurricane Damage)

Asset Class: Marine Vessels / Fast Rescue Craft

Equipment Type: Large-capacity open Fast Rescue Craft (FRC).

Heavy-duty marine aluminum.

The specialized rigid foam D-collar has been catastrophically damaged/removed on the starboard side.

Propulsion: Twin inboard marine diesels (completely destroyed) mated to twin commercial waterjet drives.

Mechanical: Total loss. Both inboard diesels were submerged and are heavily rusted.

All steering hydraulics, throttles, and wiring harnesses are completely destroyed.

Jet Drives: The twin waterjet pumps are physically intact but will require a complete teardown and rebuild before being mated to new engines.
