

MTU 12V2000 M91 Marine Engine - Good Runner and a Parts Engine

PRODUCT DESCRIPTION

MDEC Versions Port Model - R1227M01 Stbd Model - R1227M00 Ran boat to slip under own power and haul out. Comes with: All exhaust Cylinder inspection was done prior to boat purchase for Owner and found: Inspection yielded no cause for concern. The cylinder liners, piston crowns, cylinder heads and valves were all in great condition. Current Description: (1) good engine and one for parts - 5000 + hours - An injector tip failed and caused the crankcase to over pressurize. That filled the intakes with diesel fuel and engine oil. As soon as the turbos spooled up at 1200 RPM the motor ran away, hydraulic locked, and quit. Owner would like to sell both motors with gears, controls, exhaust and all mount parts etc?. Keep in mind that most of the exterior components had been replaced and have very few hours on them. All controls - house - from pod mounts and tower
