Single MTU 16V396 TE 74L Marine Propulsion Engine

PRODUCT DESCRIPTION

The Owners purchased 3 engines from China. The attached pictures are received from the yard in China when preparing for shipment.

Total running hours approx 30.000, but approx 9.000 H after W6 overhaul.

The owners purchased the engines for W6 overhaul in their own workshop. Due to fully booked workshop, they have not had time to do the W6.

Engines were in a catamaran that was demolished in 2020. No documents are available. All engines were running up to the time of the demolition. They are reported to be type approved. A single engine is available.
