

Navy Willard 24' RIB with Ridged Hull Inflatables

PRODUCT DESCRIPTION

Navy Willard 24' RIB with a 5.9 Cummins and a Konrad outdrive. The inflatable part does not hold air for very long, but the hull is sound.

Engine last ran in 2024. Need a key for this bait but that would be easy to fix. Previous owner had done some extensive engine work but the list is not available. Needs a new tube. No trailer.
