Pair 3208 TA 375hp marine w T.D. gears w 2:1

PRODUCT DESCRIPTION

1 engine has 3500 hours and the other has about 1000 hours. Engines ran good when taken out of boat to repower.

Engines were stored in a barn. Went to do a test run of each for purchase and one engine was discovered to be stuck. They took the plug out to pre-lube it, and discovered water. The other engine was pre-lubed and ran without issue.

Available gears T.D. 507 2:1
