## Pair CAT C12 Marine Engines - 1400+ hours

---

### PRODUCT DESCRIPTION

Year 2006

HP - 715

Gear available:

ZF 325-1A

Ratio 1.73:1

Units were removed Out of a Topaz Vessel used as Personal fishing vessel (not charter), Tuna and sportfishing.

Had a helm fire (electrical)

Motors were untouched but a little soot - harness got charred

ECU's (look perfect, not melted or anything)

Engines Do crank over and have low hours (1400+ hours )

Had the 1000 hours service on them.

At 1200 hours had aftercoolers done just as a precaution

Alternators, Starters are there.

Were stored in garage for the time - but just moved out for storage space - tarped currently

Turbos all good and taped up, no rust

Would need Harness to make them run - Block on the front was destroyed where the harness came down

Paint still on the oil filters

Fire suppression was foam - Engines were under the deck and fire was above in the helm

Pigtail that goes into the valve cover - not melted.
