# Pair CAT C32 Marine Engines - 1300hp @ 1800-2100RPM - New Surplus

---

---

## PRODUCT DESCRIPTION

Year 2022

Heat Exchanger cooled

They are "C" rated at 1300BHP @ 1800-2100RPM.  
Excerpt from TMI is below:

*CERTIFIED TO IMO II MARINE COMMERCIAL PROPULSION (E3 CYCLE) EMISSIONS STANDARDS.*

*ENGINE RATING: 970kW (1300 bhp) at 1800-2100 rpm 'C' rating*

*This means is they can be used as a 1800, 1900, 2000, or 2100RPM rated engine all while offering the same 1300BHP at each operating RPM.*

They could be installed in a 1300BHP @ 1800RPM as is with no changes. You would just limit the top end RPM through the vessel controls.
