## Pair CAT C9 Marine Propulsion Engines

---

### PRODUCT DESCRIPTION

Manufactured March 2005. Have approximately 2,500 hours.

Serial Prefix: CSN

Data plates were removed to paint a couple of years back and were misplaced.

Ran well. One engine has a burnt valve. Currently, partially disassembled from when they were removed from the vessel. All parts are there.

Includes computers, wire harnesses, displays, and controls.

Being sold bobtail

Installed in a 2006 boat. They were pulled in 2024, and stored under cover in a boat barn.
