Pair Cummins KT19 Marine Engines

PRODUCT DESCRIPTION

550 HP @ 2,100 RPM's RTO's in good condition. all reconditioned bought from Cummins midsouth. All were pulled out in late 2019. A year to year and a half running time. Pulled them out of a boat that was on fire but machinery area was not on fire. Running mostly Detroits in their fleet. Serial numbers don't match up to original but owner will get the serial numbers that are on there currently. In his words: "All CPL # 0969. They were all well-maintained and running when removed. Estimated time on engines were 1.5 years or 5,000 hours. They have the raw water pumps and heat exchangers. The engines are in dry storage now" Engines are bobtail.
