# Single KTA50 M2 Marine 1600HP

---

## PRODUCT DESCRIPTION

1600HP@1800RPM

These were ballast water pumps in a large ship  
Reported to have very low hours (Under 1,000 since new), which would make sense if they were just moving water between tanks to balance out the vessel.  
Mechanically controlled engines.

**Categories:** [Marine Engines](#)
