

Pair MAK 8M25C Marine Propulsion Engines ABS

PRODUCT DESCRIPTION

8 cylinders in line IMO II

2014 New / Unused

Output: Rated 2,666 kW at 750 rpm

2 Counter Clockwise rotation 2 Clockwise rotation

Compressed air starting

suitable for operation with MDO

max. viscosity: 11 cST/40 C

Fuel consumption: 187 g/kWH at 100% rated output, 184 g/kWH at 85% rated output

Four available

ABS class certificate.
