Hours on Equipment Approximately 4,300

Gear Manufacturer ZF

Gear Model 285A

Gears Output Down Angle

Gear Condition Running Take Out - RTO

Ratio 2:1

Condition RTO

Additional Information Engine And Component Equipment/Parts Are All Being Sold For Vessel Repower. Engines And Component Equipment/Parts Were Used In A 2005 Manufactured Private Vessel That Was Well Maintained And Hardly Used. All Of This Equipment Can Be Yours At A Great Price And Will Go Fast! History Engines were in a 54' Blackwell Boatworks. It is a private boat that fished about 250-300 hours per year. Boat was meticulously maintained and very clean. Owner just sold his business and wanted to upgrade the boat so he could use for a few years and then have a better resale value. We installed a gyro, sonar, new generator and new engines. He would have kept them but didn't want older engines in boat just for the resale value. Engines can be run if needed. One is all hooked up and ready to run.
