

Pair Scania DI16 45M Marine Propulsion Engines

PRODUCT DESCRIPTION

2007

625KW @ 2300RPM

49" wide at the widest point. 50" long. 40" high.

Running take outs with reported approximately 2,000 hours. They were in a Navy RCB. Owner did work on the engines for the Navy in the past. The boat underwent a complete remodification, which is why the motors were pulled. The engines look good and were running when pulled, but cannot be guaranteed. For this reason, they are being sold as good rebuildable units.

Engines only, no panel or harness.
