Installed new head gaskets and one after cooler. Complete and ready to go. Everything included, but no gauge panels. Gears are zero angle. Price is for the pair

Categories: [Marine Engines](#)

Engine Model 6LYA-STP

HP 370

Condition RTO

Additional Information They have 750hrs. Removed from a Harbor Masters Boat. They were hooked up to Hamilton Jet Drives. One aftercooler was cracked from winter cold last year. Both engines were running when removed. The marina facility broke both engines down for inspection. No wear or damage what so ever to the cylinders. Engines were reassembled, and then replaced the bad aftercooler.
