Single Cummins 6CTA Diamond Marine Propulsion Engine 435HP - Remanned.

PRODUCT DESCRIPTION

Remanned engine pulled for a repower.

Work done includes: block, new sleeves, crankshaft mic'd, cam mic'd, new pistons, and machine work done. The injection pump completely remanufactured. Turbo has approx. 30 hours. Mostly cummins parts used with some aftermarket gaskets, etc. The plumbing needs to be put on it to finish it up, the goal is to do so in February. Will do a start up video once fully assembled.
