

Pair CAT 7241 Marine Transmission 7.4:1 Ratio

PRODUCT DESCRIPTION

1200RPM

They were running in the boat until March of 2025, when the boat came in to dry dock for repower. The engines they were behind had approximately 40,000 hours on them. These gears are being sold as non-failed units, with no warranty. They were paired with 3512 marine propulsion engines. It is believed the bellhousing is SAE 00.
