# Single or Pair Rebuilt Cummins 6CTA Marine Propulsion Engine w 350HP

---

## PRODUCT DESCRIPTION

Rated at 350hp at 2500rpm. Or we can adjust them up to 400hp at 2600rpm with an injection pump change. (addnl cost)

Included with these engines are ZF-IRM220A gears in 2.45:1 ratio. Engines and gears will be painted customer color choice at time of sale.

These are mechanically controlled engines displacing 8.3-liters and in-line 6-cylinder configuration.

They are equipped with Bowman heat-exchangers and after-coolers.
