# Single Yanmar 4LH STE Marine Propulsion Engine 180HP Rebuilt

---

## PRODUCT DESCRIPTION

140KW @ 3100RPM

Rebuilt injectors  
Rebuilt turbo  
Rebuilt starter  
New hydraulic hoses  
New wire harness  
ready main seal.

Engine was rebuilt for personal use, and then they sold the boat. New boat owner converted to outboard. Reported 300 hours on the boat. Engine was sticking, so they decided to rebuild. Opened the engine up to find some rust on the pistons. They cleaned them up and rebuilt the above parts and runs great.
