

Twin Disc MG5075a 2:1 RTO

PRODUCT DESCRIPTION

This equipment is a Twin Disc MG 5075, a 2:1 running takeout unit with very low operating hours. The MG 5075a serves as a replacement for the MG 507A, featuring a footprint that closely resembles that of the MG 507A. The owner has stated that the gear remains in such impeccable condition that he has no intention of rebuilding it.
